25 YEAR RE-REVIEW

4. Training of Army Officers

A draft reply signed by the DD/P and concurred in by the DD/S has been directed to Brig. Gen. John J. Davis in connection with the Army's request to enroll two of its regular officers in the JOT course which began 9 February. The reply stated that the course is already filled to capacity and that the Army officers would suffer the disadvantage of having missed certain orientation and briefing prerequisites. It invited the Army to meet and discuss their specific training requirements and ways in which CIA could be of assistance in the Clandestine Services intelligence operations activities.
